Devices removed from Device activity Will continue to show in Google Play Settings and in Dashboard / Find my Device/,

<https://play.google.com/settings>

After a specific time of inactivity,

Device will be removed from here automatically and you can not remove Device from here,

You can hide the the Device From showing in Menus ,

Open the link,

<https://play.google.com/settings>

Uncheck next to the Device name which is not to be Shown in Google Play and other Google products,

Swipe the screen from right to left,

Tap on " edit" button,

Uncheck in the box> show in menus" next to the Device,

Swipe from right to left and tap on the " update" button> finished the process,
